

AETE

Association Européenne des Technologies de l'Embryon

Association of Embryo Technology in Europe

33rd Scientific Meeting, Bath - UK

Workshop I: **Micromanipulation**

8th of September 2017 16.00 – 17.30

Managed by **Jan Detterer** (Germany) and **Pasqualino Loi** (Italy)

1. **Introduction by Pasqualino Loi**

“Embryo manipulation: from basic science to applied research”

2. **Practical demonstrations at different manipulation units in the Card Room and the Great Octagon**

	Micromanipulation demonstrated
Serge Lacaze (France)	Biopsy of embryos
Carolina Herrera (Switzerland)	Blastocoele fluid collection for genetic testing of embryos
Luca Palazzese (Italy)	Piezo-mediated enucleation/injection in farm animal oocytes
Hanna Grothmann (Germany)	Embryo biopsy and splitting
Daniel Le Bourhis (France)	Bovine oocyte enucleation and embryo biopsy using aspiration method
Alexandre Morel (France)	Biopsy of embryos

*Thank you very much for **supporting** the workshop:*

Ian Kippax, Roger Sturmey and Bethany Muller

Activf-ET; Brian Graham (EGG Tech); Minitube; Bernardo Almeida (Narishige, UK);

Paul Roberts (Olympus, UK); Onur Öztürk (Sparmed)
